The Institute for Water Resources  
Announces the  
Availability of a New Report :

**TRIBAL PARTNERSHIP PROGRAM:** *Issues Relevant to Working with Native Americans and Alaska Natives on Section 203 Studies* (IWR 01-PS-3)

Section 203 of WRDA 2000 provides authority for a Tribal Partnership Program. The provision allows the Corps to work collaboratively with Federally recognized American Indian and Alaska Native tribal governments (tribes) to study the feasibility of water resource projects that will substantially benefit their constituents. Section 203 studies may address a number of purposes: flood damage reduction, environmental restoration and protection, and preservation of cultural and natural resources. This report identifies and examines a range of opportunities and policy issues associated with implementation of the Tribal Partnership Program.
